Price: Rs256,000

Details : The Car Air Purifier is a compact yet highly effective device built to cleanse the air inside your vehicle. With a plug-and-play design that fits conveniently into your car's power outlet, it works silently in the background to eliminate odors, smoke, dust, and airborne bacteria. This purifier uses dual filtration and ionizer technology, making it an essential for commuters, especially in high-pollution cities. Its sleek, cup-holder-friendly body and LED indicator add to the style and usability of your car's interior.
